Whats new?

Immutable contract without external functions.

We believe that having too much control over the contract scares away alot of potential investors.

HazeCrypto Audit

Our previous Auditor was not very trustworthy. We apologize for that.

Whats new?

First of its kind 6/1 strategy.

The standard 6 days compound and withdraw on day 7 has been evidentially proven to be the most efficient strategy.

Daily Lottery.

5 winners every day. The slower the contract grows, the higher the rewards will be for depositors and reinvestors. Stay tuned for announcements!
